UTC 5: BUILDING BACK BETTER

Cities in the Global South are the most hit by Covid-19. Communities in informal settlements are the most impacted ones. However, myriad of self-organised and hybrid arrangements have been developed in the city, including mechanisms of resilience to cope with the shocks.

This virtual Urban Thinker Campus addressing targets on SDG Goal 11 by showcasing actions and good practice in improving quality of life in informal settlements and inclusion of different stakeholders in the process of urban planning and development, especially in managing impacts of Covid-19.

Dates: 7-9 December 2020
Time: 9 am -12 GMT
Format: Virtual Conference and Workshops
